

## **Preventative Maintenance Inspections**

### **District Selection**

ARS §15-2002 requires the Board to randomly select 20 districts every 30 months for Preventative Maintenance Inspections. The new Preventative Maintenance Policy asks the Executive Director to submit a list of randomly selected districts to the Board for potential approval for inspection.

To make the selection, staff had a spreadsheet program randomly assign every district a number between 0 and 1. Staff then sorted the districts in descending order by that random number. The first twenty districts on the list were selected.

On September 4, 2008, the Board approved the following list of districts:

CTD	District	Number
020201000	Tombstone Unified District	0.997952
